REPLY:

- (1) Yes. In an effort to streamline and speed up water use licence application process, my Department has established the Stream Flow reduction Activity Licence Assessment Committees (SFRA-LAACs) that enhance the co-operative governance needed to meet the authorisation requirements of three major Acts (National Environmental Management Act, 1998 (Act No. 107 of 1998)(NEMA), the National Water Act, 1998 (Act No. 36 of 1998) (NWA) and the Conservation Agricultural Resource Act, 1983 (Act No. 43 of 1983) (CARA).

Furthermore, several studies have been undertaken, e.g. the Strategic Environmental Assessment which led to the development of Systematic Conservation Plan in the Eastern Cape, and the development of forestry potential maps in both Kwazulu-Natal and Eastern Cape. My Department is also busy with the eradication of water use licence backlog through the Letsema project.

- (2)(a) The name of each forestry operation that has been granted a water licence is given in column A in table 1 of **Annexure A**.
- (2)(b) The location of the operation since 1 January 2009 appears in Columns B and C in table 1 of **Annexure A**.

(3)(a) The following table provides a summary of applications for water licences for forestry operations that are awaiting finalisation in each province.

Province	KwaZulu-Natal	Eastern Cape	Western Cape	Mpumalanga	Limpopo
Number of Applications	198	187	6	2	5

(3)(b) The **Annexure B** "List of SFRA per province" provides detail information in the case of each of these applications including the date that the application was first lodged with the department
