The Mangaung Metropolitan Municipality is funded through the Urban Settlements Development Grant (USDG), which is managed by the Department of Human Settlements, for basic infrastructure including water and sanitation.

The Mangaung Metro has reported that water supply infrastructure Zone 1 and 2 in Thaba Nchu is functional. The municipality is in the process of appointing a new contractor planning to revive the project for construction of a Wastewater Treatment Plant for which the services of a previous contractor were terminated. It is anticipated that the contractor will be on site by February 2024.
