

BLUE DEAL Dutch / SA Partnership

About the Blue Deal Programme

In 2012 a Memorandum of Understanding was signed between the Dutch Ministry of Infrastructure and Water Management and the Department of Water and Sanitation. Under this MoU a long lasting partnership was established.

Purpose of the Global Blue Deal

The global purpose is to improve the water situation of 20 million people in 40 catchments by the year 2030;

Focus Areas

The specific focus areas for the Blue Deal South Africa Partnership are based on the National Water & Sanitation Master Plan (NW&SMP) and the Sustainable Development Goals. As such, the programme aims to make a real contribution to improving rivers and wetlands in a poor ecological condition and assisting in the water conservation. It builds on experiences of the Kingfisher programme, and brings the collaboration to a next level.

Partnership projects

The Department of Water and Sanitation has partnered with WRC, SALGA, and COGTA / MISA to develop and implement realistic solutions which will assist in improving the water resources and water services in the following catchment:

- the Crocodile River Project in the Inkomati – Usuthu Water Management Area
- the Vredefort Dome / Parys Project in the Upper - Vaal Water Management Area
- the Blesbokspruit Project in the Upper - Vaal Water Management Area
- the Msunduzi River Project in the Pongola – uMzimkulu Water Management Area
- the Learning Strategy to disseminate the lessons learned by these projects to other areas with similar problems.

WATER IS LIFE - SANITATION IS DIGNITY
