DWS takes part in the service delivery blitz at Matlosana Local Municipality

17 April 2023

The Department of Water and Sanitation (DWS) joined forces with the Department of Employment and Labour and Dr Kenneth Kaunda District Municipality (DRKKDM) on 14 April 2023, to drive a service delivery blitz at Jourbeton extension 24 in Matlosana Local Municipality.

The Department created awareness on career opportunities found in the Department, as well as at various water infrastructures projects.

The Department of Water and Sanitation officials from Water Sector Support and Sanitation directorates interacted with community members to give them information with regards to the core functions of DWS. The officials also listened to the residents' water and sanitation challenges.

Most residents from extension 24 raised no complaints with water supply in their area. They have explained that the only time they do not have water is when there are constructions or infrastructure maintenance by the municipality.

Residents from extension 15 and 17 also raised minor complaints with their water supply in their area. Most of the residents in Matlosana Local Municipality are happy with the water services, despite the hindrance caused by the loadshedding.
