ATTENDANCE REGISTER- COMPULSORY BRIEFING SESSION

DESCRIPTION:	HIGH DEFINITION SCANNING AND MULTIBEAM ECHO SOUNDER SURVEY TO OBTAIN GEOMETRIC 3D MODELLING OF PONGOLAPOORT AND JERICHO DAMS FOR DAM SAFETY SURVEILLANCE
BID NUMBER	W1002 WTE
VENUE:	EMANZINI G18
DATE :	11 February 2015
START TIME	11 AM

Initials and Surname	Company
D.J. BEATTIE	AUTOBUCKS AFRICA
Z. Pretorius	AOC GEOMATICS
T.S. Callinan	Axsys Infrastructure
G DEACON	SUBTECH
CISUELA	MOSARECITECC
J. SGAIBENY	MOHLABE MULTI TRADE DISTRIBUTORS

Attendance Register W1002 WTE

Initials and Surname	Company
K.A. Kunto	Action Trade Enterprise
R. Strauss	Underwater Survey
S.A. M'jee	underwater Survey
P.C. Semakamp	TEAM SURVEYS
R. Hein	Graphic Engineering Solutions + Service / ACS

MINUTES OF THE COMPULSORY BRIEFING MEETING AT DWA HEAD OFFICE (EMANZINI BUILDING ROOM G18)

BID W1002

DATE HELD TUESDAY, 11 FEBRUARY 2015

TIME 11H00

MATTERS ARISING	ACTION
PRESENT: As per the attached list	
WELCOMING	
Everyone in attendance was welcomed by Mr MN Sekgothe The attendees were requested to fill in the attendance register	
DISCUSSIONS	
<p>The chairperson called upon our SCM representative Mr MN Sekgothe to give a brief presentation on compulsory documentation that all prospective bidder must fully comply.</p> <p>Phase 1: Administration compliance for W1001 WTE</p> <p>Mr MN Sekgothe gave a concise presentation on administration compliance. He emphasized that the evaluation will be evaluated in three phases administration compliance, technical compliance and price and preference. He emphasized that all the SBD forms (SBD1,SBD3.2,SBD6.1,SBD8 and SBD9) must be completed in full and signed the forms where appropriate.</p> <p>He also asked the bidder to submit certified copy or original of the following documents with this bid</p> <p>Phase 1: Administration compliance for W1002 WTE</p> <ol style="list-style-type: none"> 1. Original and valid tax clearance certificate 2. Company registration certificates cipc/cipro 3. Proof of professional registration council certificates: ECSA, PLATO 4. Previous experience accompanied by a reference letter from a referee for similar work done with high definition scanning and multibeam Echosounder done on dams building and road bridges. 5. Completed and signed tentative programs and data sheet. 	

6. Technical brochure and information which provide complete technical details of the specified models offered in this bid

Phase 2: Technical compliance for W0 1002 WTE

Mr C Pretorius presented the specification to the prospective bidder. He emphasized that High definition scanning and multibeam echosounder survey to obtain geometric 3D modelling of Pongolapoort and Jericho dams for the dam safety surveillance. The plans for PGR he emphasized that modelling of the surrounding topography should be 50m upstream and 50m downstream of the dam. To deliver 3D in 5 days convert the 3D model into required by the Parasolid. Structure in solids in MicroStation. Conversion of the model into a AutoCAD format required by KeyCreator software. Supply 3D Adobe PDF models

Jericho dam plans he emphasized that high definition scanning takes 2 days. 3D modelling of the concrete structure DTM of earth fill embankments modelling of the surrounding topography should be 50m upstream and 50m downstream of the dam. To deliver 3D in 5 days convert the 3D model into required by the Parasolid. Structure in solids in MicroStation. Conversion of the model into a AutoCAD format required by KeyCreator software. Supply 3D Adobe PDF models

Phase 3 Evaluation of price, rates and preference points

Mr MN Sekgothe emphasized that bidders are required to submit original and valid B-BBEE status level verification certificates or certified copies together with their bids. Bidders should note the points may be claimed for B-BBEE in terms of the preferential procurement regulation. Bidders who do not submit B-BEE status level verification certificates or non-responsive compliant contributors to B-BBEE do not qualify for preference points for B-BBEE but should not be disqualified from the bidding process.

A trust, consortium or joint venture must submit a consolidated B-BBEE status level verification certificates

Closing of bids

Bids received before the closing date and on the closing date before 11:00 (timing derived from Telkom time announcement) will be accepted. Closing date is on 26 February 2015, tender box at 257 Francis Baard Street (previously known as Schoeman Street) Zwamadaka Building.

He emphasized that if the bidder has sub-contractors must attach valid and original tax clearance of the proposed sub-contractors. Failure to attach valid and original tax clearance certificates for the listed sub-contractors will render the bidder's bid non-responsive.

GENERAL

Any enquiries regarding the bid you will contact Mr C Pretorius to this number 012 336 8786 or e-mail pretoriusc@dwa.gov.za
The successful bidder will be paid according to the actual work done

CLOSURE

The meeting adjourned at 12H50

Tool and Die Maker certificates of qualification4.Meibc certificates5.Technical brochure and information which provide complete technical details of the specified models offered in this bid	

Phase 2: Technical compliance for W 1001 WTE

Mr C Pretorius presented the specification to the prospective bidder. He emphasized that Bronze beacon plate for dimensions 200 bronze beacon plates to be casted using dws patterns at protea fountry van der biji park and 0.01mm tolerance. Supply 600 hexagon socket head cap screws stainless steel

Bronze target holder for dimensions 300 bronze target holders to be casted using dws patterns at protea fountry, van der biji park to be machined to 0.01mm tolerance.

Brass GPR adaptors for dimensions 500 brass GRP adaptors to be 0.01mm to be tested in the workshop with item E and a leica GRP prism for fitting tolerance

Brass beacon/prism adaptor for dimensions 500 brass/prism adaptors with centred grub screws to be machined 0.01mm tolerance. To be tested in the workshop with items B,C and D for fitting tolerance

Brass target holder cover for dimensions 300 to be machined 0.01mm. to be tested in the workshop with items C for fitting tolerances with hexagon socket head cap screw m10*60

Brass beacon plate anchor for dimensions 600 to be machined 0.01m. to be tested in the workshop with items B for fitting tolerance with hexagon socket head cap screw m10*40

Brass wall target holder for dimensions 200 to be machined 0.01mm tolerance.

GRP pin stainless steel for dimensions 200 (stainless steel grade 316) to be machined 0.01mm tolerance. To be tested with a leica GRP prism for fitting tolerances.

Brass benchmarks for dimensions 600 to be machined 0.01mm tolerance. 600 brass washers to be machined 0.01mm tolerance.

Phase 3 Evaluation of price and preference points

Mr MN Sekgothe emphasized that bidder are required to submit original and valid B-BBEE status level verification certificates or certified copies together with their bids. Bidders should note the points may be claimed for B-BBEE in terms of the preferential procurement regulation. Bidder who do not submit B-BEE status level verification certificates or non responsive compliant contributors to B-BBEE do not qualify for preference points for B-BBEE but should not be disqualified from the bidding process.

A trust, consortium or joint venture must submit a consolidated B-BBEE status level verification certificates

Closing of bids
