CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

**TERMS OF REFERENCE FOR
THE REVIEW OF THE SHAREHOLDER OVERSIGHT MODEL FOR PUBLIC ENTITIES
REPORTING TO THE MINISTER OF WATER AND SANITATION**

January 2018

DIRECTORATE: INSTITUTIONAL GOVERNANCE

Private Bag X313, PRETORIA, 0001

REPUBLIC OF SOUTH AFRICA

1. BACKGROUND

The Minister of Water and Sanitation, as Shareholder representative on behalf of the Government, has the mandate to provide oversight management of the following entities: Nine (9) Water Boards (Schedule 3B, in terms of the PFMA), the Water Research Commission, the Catchment Management Agencies (CMAs) (Schedule 3A, in terms of the PFMA) and the Trans-Caledon Tunnel Authority (Schedule 2, in terms of the PFMA). The aim of the Department of Water and Sanitation (DWS) is to provide effective shareholder management of entities that report to the Department and support and promote economic efficiency and competitiveness for a better life for all South Africans. In order to exercise ownership towards capital efficiency and achieve strategic objectives, the Minister of Water and Sanitation has to be clear, transparent and accountable in communication to the entities of expectations on shareholder value maximization.

The role of the Water Sector Entities is of significant importance as these entities have a critical role to play in advancing economic growth. The entities are active in key areas such as the distribution of water, operation and maintenance of water infrastructure, sourcing of funding for key infrastructure development and water related research. These sectors are of critical importance to the well-being of all citizens and to the competitiveness of upstream and downstream private sector companies and industries. Water Infrastructure investments are a part of the accelerated growth strategy, and entities are implementing comprehensive investment programmes to ensure that significant and sustained opportunities for investment are created in supplier industries. Enhancing the performance of these entities within the sector via better governance practices, effective strategy formulation and performance monitoring has great potential to improve economic and social outcomes.

As the Shareholder, the role of Government is to define and provide clear strategic goals for the entities to ensure that it achieves its statutory mandate. Government monitors the planning, delivery and financing of the entities based on the mandate by ensuring proper and effective shareholder management with active involvement of the shareholder around the exercise of the following key levers:

- Board and CEO appointments;
- Reserved shareholder approval rights; and
- Performance monitoring.

In order to ensure that the Entity established by an Executive Authority performs at the required levels, the Executive Authority as the Governing Body is responsible and must provide the mechanisms and processes that will ensure the effective, efficient, transparent and quality of service delivery requirements identified. In order to provide for this, The Executive Authority exercise stakeholder oversight.

This oversight by the Executive Authority includes, but is not limited, to the review, monitoring and overseeing of the affairs, practices, activities, behaviour and conduct of the Entities for which the Executive Authority is accountable.

The oversight and monitoring of these institutions in terms of statutory compliance and performance is a challenge and the Government as the shareholder of water sector institutions faces a wide range of risks associated with the operation of the institutions, including financial, reputation, political and operational risks. It is the responsibility of the EA (in whom primary responsibility for appropriate oversight of these entities and accountability to Parliament rests) to ensure that these institutions comply with all relevant legislation and perform in an effective, efficient and sustainable manner at all times

From an oversight perspective there are clear potential risks of some of these public institutions failing to comply with the relevant legislative mandates or failure to perform in an effective, efficient and/or sustainable manner. The consequences of any such failure could be potentially immense and may well impact significantly on governments socio-economic delivery agenda in the relevant areas and the quality of life of affected citizens.

The corporate governance responsibility of the Executive Authority as the Shareholder, involves ensuring that all the necessary and appropriate corporate governance structures, procedures, practices, controls and safeguards, are established, in place and maintained.

The Directorate: Institutional Governance was mandated by the Minister of Water and Sanitation to develop and implement a new oversight model for the water sector entities. The intention of this exercise would be to develop an oversight model for all water sector entities to improve monitoring, compliance and performance of these entities.

The Directorate utilises a governance framework that was approved in the early 2000s and does not incorporate the latest governance practices such as King III and IV and the new Companies Act.
