TERMS OF REFERENCE FOR THE SOURCING OF SUITABLE CONTRACTORS TO IMPLEMENT THE BUCKET ERADICATION PROGRAMME IN FOUR PROVINCES FOR A PERIOD OF TWO YEARS (2015/16-2016/17)

PURPOSE OF THE PROGRAMME

The aim of the project is to appoint suitable contractors to implement the Bucket Eradication Programme in the four provinces. This implementation process involves the provisioning of construction capacity and social facilitation services in the implementation of the said programme.

2. BACKGROUND

Government has recognised the vital need for the provision of basic services to all of its citizens, whilst targeted interventions focus on the previously marginalised segment of the population is prioritised. Government has made positive and major strides in addressing both sanitation and water supply backlogs since 1994, as well as achieving the Millennium Development Goal for sanitation in 2008. Despite these gains, the provisioning of adequate sanitation services as well as addressing the daunting backlogs remains a major challenge. This is compounded by on-going growth of informal settlements in urban areas resulting from rural-urban migration, population growth and influx of foreign nationals to South Africa. Approximately three million South Africans have been provided with access to adequate sanitation services since 1994. However, 2.1 million households are still without proper sanitation services.

Sanitation delivery backlogs are classified as follows:

- **Service delivery backlog (people who have never been served);**
- **Refurbishment backlogs (sanitation infrastructure that has deteriorated beyond regular maintenance requirements)**
- **Extension backlogs (existing infrastructure that needs to be extended to provide services to new households in communities)**
- **Upgrade needs (infrastructure that does not meet the minimum standards)**
- **Operation and maintenance (O&M) backlogs (infrastructure that has not been properly operated and maintained, but can be adequate if funds are allocated to ensure proper operation and maintenance)**

To address this challenge of sanitation as well as accelerating bucket eradication in formal areas, the inter-Ministerial Committee (IMC) commonly known as "TROIKA" comprising of Departments of Water and Sanitation (DWS), Human Settlements (DHS) and Cooperative Governance and Traditional Affairs (COGTA) was established during September 2013 to

implement the Bucket Eradication Programme. This grant seeks to accelerate sanitation delivery and to eradicate the bucket sanitation system in affected areas.

When referring to basic-on-site sanitation it is important to note that sanitation is not only infrastructure, but it also refers to health and hygiene as per definition of sanitation in the White Paper on Basic Household Sanitation September 2001, approved by Cabinet: *"Sanitation" refers to the principle and practices relating to the collection, removal or disposal of Human excreta, household wastewater and refuse as they impact upon people and the environment. Good sanitation includes appropriate health and hygiene awareness and behaviour and lastly acceptable, affordable and sustainable sanitation services".*

3. OBJECTIVES OF THE PROGRAMME

The objectives of the Terms of Reference is to invite proposals from suitably qualified Contractors that have an excellent track record, in-depth understanding and competence of implementing large scale urban sanitation and water projects, to make proposals to participate in the implementation of the Programme. The fundamental objective of this project is to ensure that the Bucket Eradication Programme eradicates existing household sanitation backlogs identified in peri-urban and urban municipalities.

The Bucket Eradication Programme is currently being implemented in the following provinces i.e Eastern Cape, Free State, Northern Cape and North West Provinces.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
