DETERMINATION OF WATER RESOURCE CLASSES AND ASSOCIATED RESOURCE QUALITY OBJECTIVES IN THE THUKELA CATCHMENT: BACKGROUND

PROJECT STEERING COMMITTEE MEETING 02

Presented by:
Mohlapa Sekoele
Department: Water & Sanitation

Date: 22 September 2020

PURPOSE

- To provide background to the study
- To provide progress to date on the study in the Thukela Catchment

BACKGROUND

- Two year study; from August 2019 to February 2021
- Output:
 - **Water Resource Classes:** describe what state the water resources need to be in to satisfy beneficial use.

	Description of use	Majority of ecological categories
Class I	Minimally used	A-B
Class II	Moderately used	C
Class III	Heavily used	D

- **Resource Quality Objectives:** conditions which should be met in the receiving water resource. Give effect to the implementation of the classes. RQOs provide statements about:
 - what the quantity of the water should be (water level, pattern, timing)
 - what the water quality should be (physical, chemical and biological)
 - what the condition of the instream and riparian habitat should be
 - what the condition of the biota should be.

STUDY PROCESS & PROGRESS

In accordance with the Classification and RQOs guidelines

1	Describe the status quo and delineate the study area into units of analysis (IUAs)	Completed	Stakeholder Engagement (In progress)
2	Delineate and prioritise Resource Units (RUs)	In progress: Workshop on prioritisation held on 02/09/2020	
3	Quantify the ecological water requirements (EWRs)	In progress: Site visits done 06-11/09/2020 Specialists workshop held 15-18/09/2020	
4	Identify and evaluate scenarios within the IWRM process	Initiated: (report on linking the value and condition of resources (feeds into the scenario evaluation) – focus of this meeting)	
5	Determine Water Resource Classes based on catchment configurations	Not yet started	
6	Determine RQOs and provide implementation information	Not yet started	
7	Gazette Water Resource Classes and RQOs	Not yet started	

STAKEHOLDER ENGAGEMENT

➤ Public Meetings (26/02/2020 at Newcastle & 27/02/2020 at Estcourt)

Purpose: - To introduce the study

- Invite nominations from stakeholders to serve as PSC representatives

Outcome: PSC membership

➤ PSC Meeting 1 (16/07/2020)

Purpose: Present and discuss Status Quo Assessment and Draft IUAs

Outcome:

- Input to Status Quo assessment

- Confirmation of IUAs

- Finalisation of the Status Quo and IUA Delineation Report

➤ PSC Meeting 2 (22/09/2020: *this meeting*)

Purpose: To present the methods for linking of the value and condition of the water resources and obtain input

THANK YOU
