### MINISTER OF WATER AND ENVIRONMENTAL AFFAIRS

#### NATIONAL ASSEMBLY: QUESTION 2629 FOR WRITTEN REPLY

A draft reply to the above question asked by Mr G R Morgan (DA) is attached for your consideration.

  
ACTING DIRECTOR GENERAL

DATE: 26/09/2011

  
DRAFT REPLY APPROVED/AMENDED

  
MRS B E E MOLEWA, MP  
MINISTER OF WATER AND ENVIRONMENTAL AFFAIRS

DATE: 2011/09/27

# NATIONAL ASSEMBLY

## FOR WRITTEN REPLY

### QUESTION NO. 2629

**DATE OF PUBLICATION IN INTERNAL QUESTION PAPER: 9 SEPTEMBER 2011  
(INTERNAL QUESTION PAPER NO. 28)**

**2629. Mr G R Morgan (DA) to ask the Minister of Water and Environmental Affairs:**

- (1) Since her reply to question 879 on 3 November 2009, (a) what is the latest number of water services authorities (WSAs) that have submitted water services development plans (WSDPs), (b) what are the names of the WSAs that are currently preparing WSDPs and (c) what are the names of the individual WSAs that are not preparing WSDPs and neither have submitted WSDPs;
- (2) whether any of the provinces do not have structured reporting mechanisms on WSDPs implementation compliance; if so, (a) which provinces and (b) why, in each case;
- (3) whether, since her reply was received on 3 November 2009, there has been any improvement in the Department of Water's ability to assess the WSDPs of WSAs for feasibility in line with national and regional water demand and supply; if not, why not; if so, what are the relevant details?

NW3080E

## REPLY:

- (1)(a) Since 2009, 152 out of a total of 153 existing water services authorities (WSAs), including the previous 107 WSAs, have submitted their water services development plans (WSDPs).
- (1)(b) The WSAs that are currently preparing updated WSDPs are listed below:

- (1)(c) There is only one WSA, the Ngaka Modiri Molema WSA in the North West Province, that has not submitted its WSDP.
- (2)(a) The electronic system developed by the Department is a structured reporting mechanism for all provinces. Since 2009, this system has guided municipalities with their annual reporting format and as such 68 annual reporting business plans – spread throughout the nine provinces – have been submitted indicating compliance.
- (2)(b) Falls away.
- (3) The situation is unchanged. However, all WSDPs received by the Department are assessed through a comprehensive assessment tool. The Department embarked on a series of studies to assess the water resource requirements (current and future) for each town and village (or clusters of them) in the country, as well as the water resources and other measures available to supply these requirements. About 80% of the towns are covered and reports are available. The remainder will be completed by March 2012. The WSDPs will have to be aligned with these strategies as far as the water resource requirements are concerned.
