REPLY:

- (1) Yes, thus far the Department managed to identify the sludge producers around the Kempton Park area. The two sludge producers are East Rand Water Care Company, (ERWAT) and Johannesburg Water. The North West Regional Office is conducting full scale investigation during the month of March 2014 and this will include a meeting with two sludge producers as well as the stakeholders who utilise the sludge from the two entities. A comprehensive report will be compiled detailing the findings, recommendations and steps taken to remedy the situation.
