

APPENDIX B SITE GEOMORPHOLOGY

1. TYPE OF SURVEY

Rapid		Intermediate		Comprehensive		Biomonitoring		Other	
--------------	--	---------------------	--	----------------------	--	----------------------	--	--------------	--

2. BACKGROUND MAP BASED INFORMATION

Recorder		Quaternary catchment			
River					
Site no.		Altitude (m)		Lat.	
Date				Long.	

3. PHOTOGRAPHIC RECORD (tick)

General view of valley setting		Condition of right hand bank	
Upstream		Condition of left hand bank	
Downstream		Other	

4. FLOW REGIME (tick one)

storm runoff		seasonal		perennial	
---------------------	--	-----------------	--	------------------	--

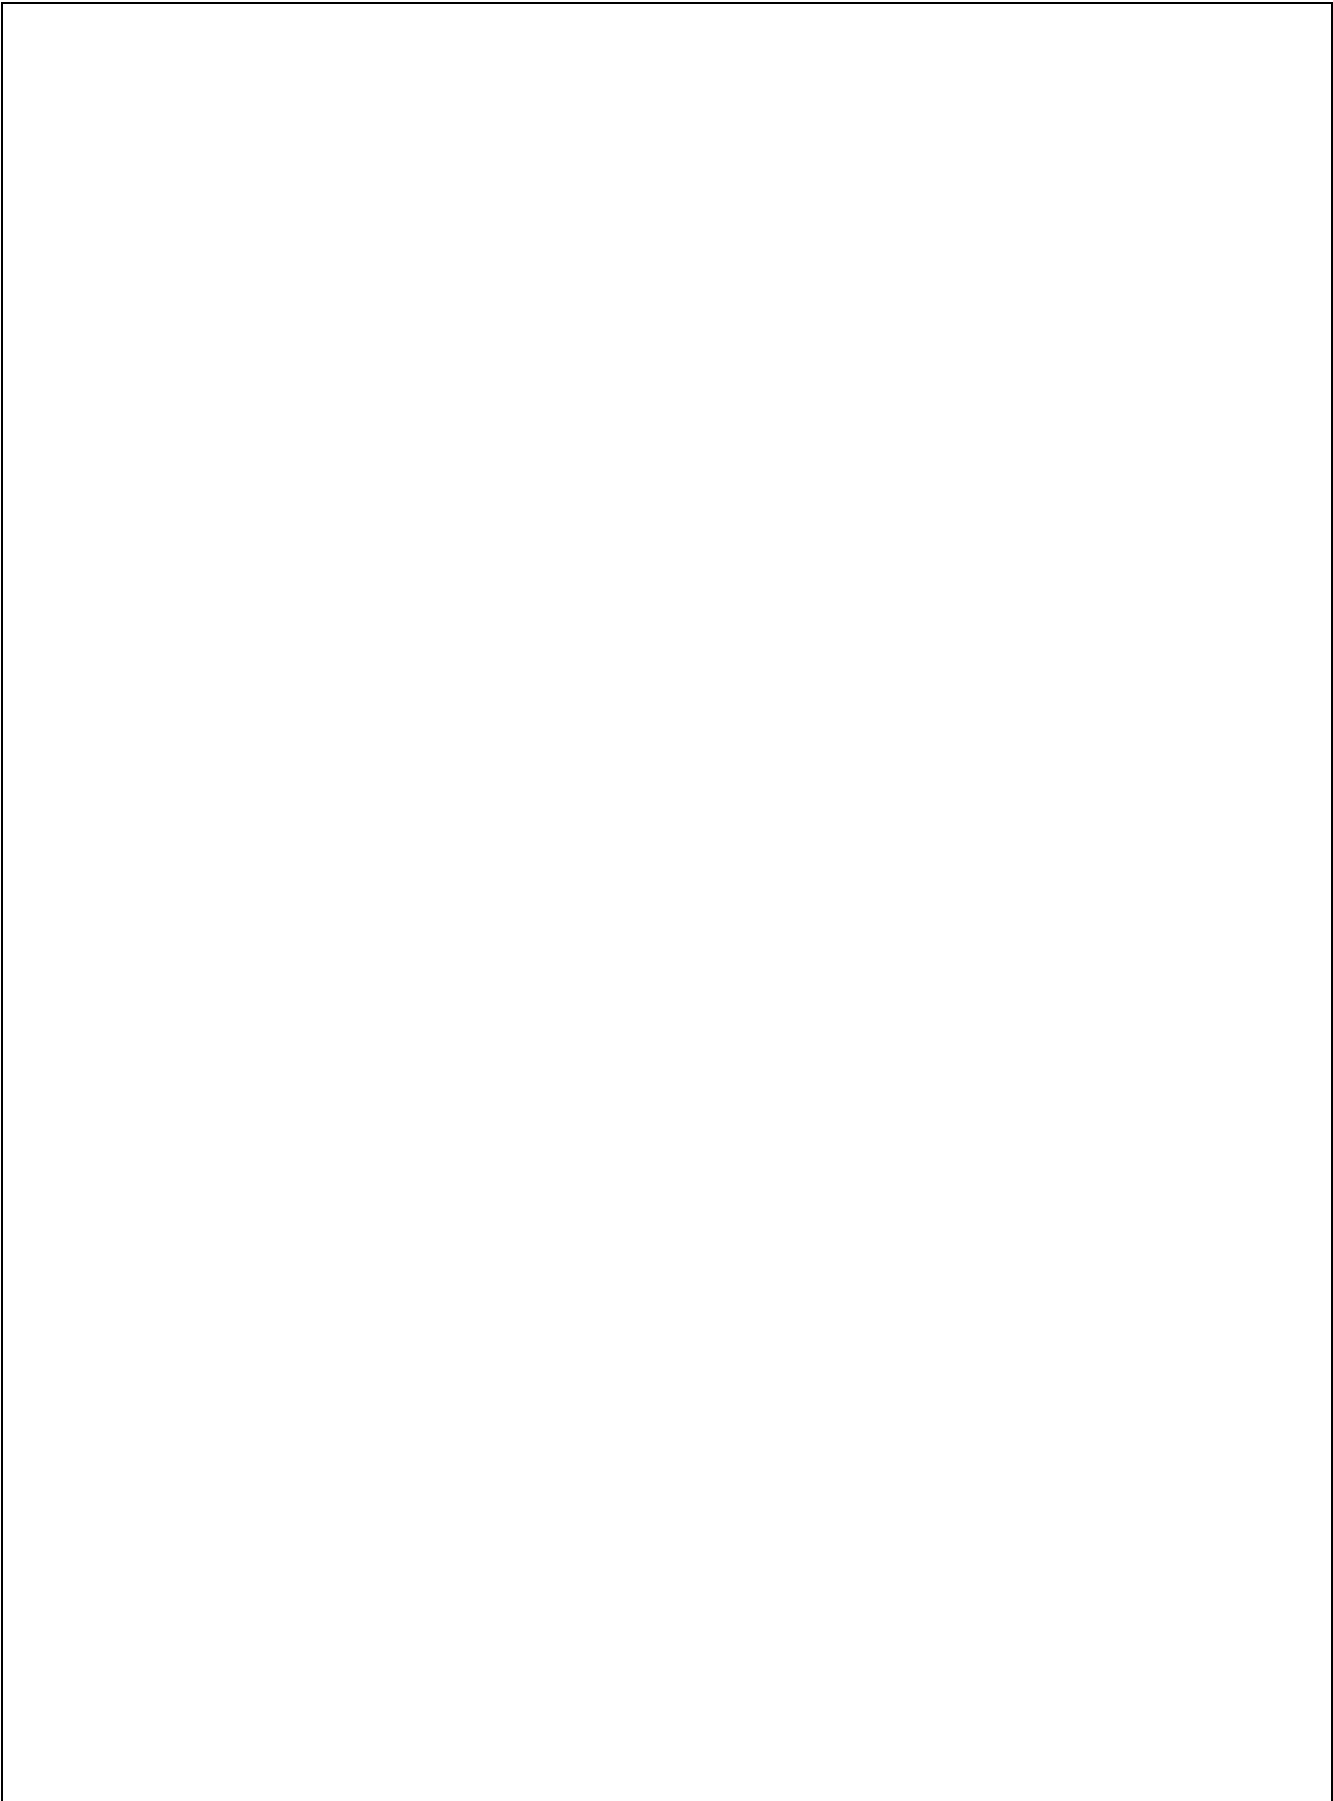

5. CONDITIONS AT TIME OF SITE VISIT

a) water level at time of sampling

Dry		Medium Flow	
Isolated Pool		High Flow	
Low Flow		Flood	

b) water turbidity

Clear (bed features clearly visible in moderately deep water)	
Cloudy (bed features only visible in shallow water)	
Opaque (no features visible)	

6. CHANNEL PLAN:
