

Table 4. Summary data for all named rivers at 1:250 000 scale for secondary catchments B1 to B7 and X2 and X3, and 1:500 000 scale for secondary catchments B8, B9, X1 and X4. Details related to each river's "parent" river, ecoregion level 1, vegetation type, lithostratigraphic unit and hydrological (Hyd) type (P=perennial and N=non-perennial, based on maps) are presented. Appendices 1 and 2 provide information pertaining to the vegetation types and lithostratigraphic units respectively.
