**WATER RIGHTS**

As per the previous Orange River Replanning Study certain reservations of water rights were made by that Study which included approximately 3 000 ha for the Lower Barkly Bridge area.

This is not being utilized currently and the chance of the development actually taken place due to the huge capital investment that would have to be made is unlikely that this will happen.

Accordingly our Management Committee has resolved that these Water Entitlements be made available to other developers within our Scheme.

This can be seen that the development and production be achieved in the quickest possible time with the necessary benefits not only to the country, but to the community materializing at the earliest opportunity.

Accordingly we will recommend any applications for water entitlement from this reservation at the earliest opportunity.

Yours faithfully

JHH DU PLESSIS  
CHIEF EXECUTIVE OFFICER  
HDP/lf

**G119/2014** **SCHEEPERSVLAKTE FARMS PTY LTD - WATER RIGHTS APPLICATION - G68/2014**  
**SRCC - WATER RIGHTS FOR BEE PROJECT - G68/2014**  
**JOHN VOSLOO ATTORNEYS - CANAL CAPACITY - DS VAN DER WESTHUIZEN - G68/2014**

Agreed:

That the Association supports the transfer of water for development from Barkly Bridge area to the Upper Valley, subjected to the regulations and conditions of the Department of Water Affairs with emphasis on BEE / emerging farmers.
