10580020180928-General Landowner Notification MCWAP-2 Borrow Pits-Signed.pdf

10580-20180226-BP S51.pdf

PROPOSED MOKOLO AND CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT PHASE 2A (MCWAP-2A): BORROW PITS

This serves to notify the directly and adjacently affected landowners of the Borrow Pits required for the proposed MCWAP-2A. Refer to the attached letter, which provides further information with regards to the project, as well as the Environmental Impact Assessment (EIA) process. A map which shows the location of a proposed borrow pit in relation to your property is also attached hereto.

May we please request that the ACKNOWLEDGEMENT OF RECEIPT (last page of the letter) be completed and returned to us.

You are welcome to contact us if you have any queries.

VOORGESTELDE MOKOLO EN KROKODILRIVIER (WES) WATERAANVULINGSPROJEK FASE 2A (MKWAP-2A): LEENGROEWE

Hiermee word kennis gegee aan die direkte en aangrensende geaffekteerde grondeienaars aangaande die leengroewe wat benodig word vir die voorgestelde MKWAP-2A. Verdere inligting in verband met die projek, sowel as die Omgewingsimpakbepalings-proses, word in die aangehegte skrywe voorsien. 'n Kaart wat u eiendom en die voorgestelde leengroef aandui is ook aangeheg.

Ons wil asb. versoek dat u die voltooid ERKENNINGSVORM (laaste bladsy van die skrywe) na ons toe terugstuur.

Kontak ons gerus indien u enige navrae het.

Regards / Groete

PROPOSED MOKOLO AND CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT PHASE 2A (MCWAP-2A): BORROW PITS

This serves to notify the directly and adjacently affected landowners of the Borrow Pits required for the proposed MCWAP-2A. Refer to the attached letter, which provides further information with regards to the project, as well as the Environmental Impact Assessment (EIA) process. A map which shows the location of a proposed borrow pit in relation to your property is also attached hereto.

May we please request that the ACKNOWLEDGEMENT OF RECEIPT (last page of the letter) be completed and returned to us.

You are welcome to contact us if you have any queries.

VOORGESTELDE MOKOLO EN KROKODILRIVIER (WES) WATERAANVULLINGSPROJEK FASE 2A (MKWAP-2A): LEENGROEWE

Hiermee word kennis gegee aan die direkte en aangrensende geaffekteerde grondeienaars aangaande die leengroewe wat benodig word vir die voorgestelde MKWAP-2A. Verdere inligting in verband met die projek, sowel as die Omgewingsimpakbepalings-proses, word in die aangehegte skrywe voorsien. 'n Kaart wat u eiendom en die voorgestelde leengroef aandui is ook aangeheg.

[10580-20180927-General Notification MCWAP-2A EIA.pdf](#)

Dear Nicholas

Nemai Consulting was appointed by the Department of Water and Sanitation (DWS) and TCTA (Implementing Agent) to conduct the Environmental Impact Assessment (EIA) for the proposed **Mokolo Crocodile River (West) Water Augmentation Project Phase 2A (MCWAP-2A)**. Further information with regards to the project is provided in the attached letter.

This serves as notification of the review of the Draft EIA Report for the MCWAP-2A: **Water Transfer Infrastructure** (application to the Department of Environmental Affairs). As an identified authority for this project, a copy of the aforementioned report was delivered to your office (for your attention). Note that the review period is from **28 September until 29 October 2018**.

We take note that your system was down and that DMR was unable to load the application for the MCWAP-2A: Borrow Pits onto your system. We will forward separate correspondence to you in this regard.

You are also invited to attend an **Authorities Meeting**, during which an overview will be provided of these reports. The details of the Authorities Meetings are as follows:

Date	10 October 2018
Time	9:30 – 11:30
Venue	Kumba Bioscope Hall, Thabazimbi (Coordinates: 24°35'52" S, 27°24'20" E)

You are welcome to contact us if you require more information.

P.S. Please forward this correspondence to any other parties within your organisation who you may deem to be interested in the project.

Regards
Donavan Henning

Nemai Consulting

Message 10580-20180927-General Notification MCWAP-2A EIA.pdf

10580-20180927-MCWAP-2A EIA Combined Comment Sheet.docx

PROPOSED MOKOLO CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT (MCWAP) PHASE 2A

Notice of Review of Draft Scoping Report (Borrow Pits) & Draft EIA Report (Water Transfer Infrastructure), as well as Authorities Meeting

Nemal Consulting was appointed by the Department of Water and Sanitation (DWS) and TCTA (Implementing Agent) to conduct the Environmental Impact Assessment (EIA) for the proposed **Mokolo Crocodile River (West) Water Augmentation Project Phase 2A (MCWAP-2A)**. Further information with regards to the project is provided in the attached letter.

This serves as notification of the review of the following reports for components of MCWAP-2A:

- 1) Draft Scoping Report for the **Borrow Pits** (application to the Department of Mineral Resources); and
- 2) Draft EIA Report for the **Water Transfer Infrastructure** (application to the Department of Environmental Affairs).

The abovementioned reports will be lodged for review from **28 September until 29 October 2018**. These reports can be downloaded from the following websites from 28 September 2018: <http://www.nemal.co.za/environmental.html> or <http://www.dwa.gov.za/Projects/MCWAP/>.

Comments can be provided in writing and forwarded to Nemal Consulting via email, fax or post. Comments Sheets can also be used for this purpose (see attached). Please forward all comments by 29 October 2018.

You are also invited to attend an **Authorities Meeting** (details follow below), during which an overview will be provided of the reports. Note that the details of the *public meetings* are also contained in the attached letter.

AUTHORITIES MEETING	
Date	10 October 2018
Time	9:30 – 11:30
Venue	Kumba Bioscope Hall, Thabazimbi (Coordinates: 24°35'52" S, 27°24'20" E)

You are welcome to contact us if you require more information.

P.S. Please forward this correspondence to any other parties within your organisation who you may deem to be interested in the project.

Regards
Donovan Henning

Message 10580-20180927-General Notification MCWAP-2A EIA.pdf

10580-20180927-MCWAP-2A EIA Combined Comment Sheet.docx

PROPOSED MOKOLO CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT (MCWAP) PHASE 2A

NOTICE OF REVIEW OF DRAFT SCOPING REPORT (BORROW PITS) & DRAFT EIA REPORT (WATER TRANSFER INFRASTRUCTURE), AS WELL AS PUBLIC MEETINGS

Notice is hereby given in terms of the following:

- The Environmental Impact Assessment (EIA) Regulations (Government Notice No. R. 982 of 4 December 2014, as amended), in terms of the National Environmental Management Act (Act No. 107 of 1998);
- The Mineral and Petroleum Resources Development Act (Act No. 28 of 2002); and
- The National Water Act (Act No. 36 of 1998).

PROJECT OVERVIEW:
Water demand will increase in the Lephalale area due to various planned and anticipated developments associated with the Waterberg coalfields. The Department of Water and Sanitation (DWS) commissioned the MCWAP Feasibility Study to investigate the options for meeting the aforementioned water requirements.

- MCWAP Phase 2A entails a proposed transfer scheme from the Crocodile River (West) at Vleëpoot near Thabazimbi to the Lephalale area (Limpopo Province) via a system consisting of:
- Weir and abstraction infrastructure, including a balancing reservoir, desilting works, and a high lift pump station at Vleëpoot (near Thabazimbi);
 - Transfer system (approximately 100 km);
 - Break Pressure Reservoir;
 - Operational Reservoir;
 - Delivery system, consisting of a gravity pipeline (approximately 30km) running from the Operational Reservoir to the Steenbokpan area; and
 - Ancillary infrastructure.

Construction material will need to be sourced from approximately 30 borrow pits that will be located at 5km intervals along the project footprint.

APPLICATION FOR ENVIRONMENTAL AUTHORISATIONS:

Nemsi Consulting is appointed by DWS and TCTA (Implementing Agent) to conduct the EIAs for the following, in terms of Government Notice No. R. 982 of 4 December 2014 (as amended):

- Water Transfer Infrastructure** – application for a Scoping and EIA process to the Department of Environmental Affairs; and
- Borrow Pits** – application for a Scoping and EIA process to the Department of Mineral Resources.

In addition, approval will also be sought from DWS for water uses associated with the project in terms of Section 21 of the National Water Act (Act No. 36 of 1998).

REVIEW OF DRAFT REPORTS:

The Draft Scoping Report (Borrow Pits) and Draft EIA Report (Water Transfer Infrastructure) will be lodged for public review at the following venues from **28 September until 29 October 2018**:

VOORGESTELDE MOKOLO EN KROKODILRIVER (WES) WATERAANVULLINGSPROEJ (MKWAP) FASE 2A

KENNISGEWING AANGAANDE DIE HERSIENING VAN DIE VOORLOPPE OMVANGSBEPALINGSVERSLAG (LEENGROEWEL EN VOORLOPPE OMGEWINGSIMPALINGSVERSLAG (WATEROORDRAGSKEMA), SOEWEL AS OPENBARE VERGADERINGS

Hierdie kennisgewing word gegee kragtens die volgende:

- Die Omgewingsimpakbeoordelingsregulasies (Staatskennisgewing Nr. R. 982 van 4 Desember 2014, soos gewysig), kragtens die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998);
- Die Wet op die Ontwikkeling van Minerale en Petroleum Hulpbronne (Wet Nr. 28 van 2002); en
- Die Nasionale Waterwet (Wet Nr. 36 van 1998).

PROEKOORSIG:
Waterbehoefes in die Lephalale area sal toeneem weens verkeie beplande en verwagte ontwikkelings geassosieer met die Waterberg Steenkoolveld. Die Departement van Water en Sanitasie (DWS) het die MKWAP-uitvoerbaarheidsstudie uitgevoer om opsies vir die voorsiening in die water-behoefes te ondersoek.

- MKWAP Fase 2A behels 'n wateroordragskema vanaf die Krokodilrivier (Wes) by Vleëpoot naby Thabazimbi na die Lephalale-gebied. Die infrastruktuur verbonde aan die voorgestelde oordragskema behels die volgende:
- 'n Stuwal en ontrentkingswerke by Vleëpoot;
 - Balanseerdamme, ontstikkingswerke en 'n hoëdruk-pompstasie;
 - Oordragskema (ongeveer 100 km);
 - 'n Drukbrekreservoir;
 - 'n Operasionele bergingsdam;
 - 'n Leweringstelsel wat bestaan uit 'n gravitasiepylplyn (ongeveer 30 km) vanaf die operasionele bergingsdam na die Steenbokpan-gebied; en
 - Aanvullende infrastruktuur.

Konstruksiemateriaal word benodig vanaf ongeveer 30 leengroewe wat in 5km intervale langs die pyplyn beplan word.

AANSOEK OM OMGEWINGSMAATIGING:

Nemsi Consulting is aangestel deur DWS en TCTO (Implementeringagent) om die Omgewingsimpakbeoordelings (OIB) uit te voer vir die volgende projekkomponente, ingevolge Staatskennisgewing Nr. R. 982 van 4 Desember 2014 (soos gewysig):

- Wateroordragskema** – aansoek vir Omvangsbeoordeling en OIB by die Departement van Omgewingsake; en
- Leengroewe** – aansoek vir Omvangsbeoordeling en OIB by die Departement van Minerale Hulpbronne.

Magtiging word ook benodig vanaf DWS vir waterverbruik ingevolge Artikel 21 van die Nasionale Waterwet (Wet Nr. 36 van 1998).

HERSIEN VAN DIE VOORLOPPE VERSLAE:

Die voorlopige Omvangsbeoordelingsverslag (Leengroewe) en voorlopige Omgewingsimpakbeoordelingsverslag (Wateroordragskema) sal beskikbaar gestel word vir openbare besigtiging by die volgende plekke vanaf **28 September tot 29 Oktober 2018**:

10580-20180927-General Notification MCWAP-2A EIA.pdf

10580-20180927-MCWAP-2A EIA Combined Comment Sheet.docx

PROPOSED MOKOLO CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT (MCWAP) PHASE 2A

NOTICE OF REVIEW OF DRAFT SCOPING REPORT (BORROW PITS) & DRAFT EIA REPORT (WATER TRANSFER INFRASTRUCTURE), AS WELL AS PUBLIC MEETINGS

Notice is hereby given in terms of the following:

- The Environmental Impact Assessment (EIA) Regulations (Government Notice No. R. 982 of 4 December 2014, as amended), in terms of the National Environmental Management Act (Act No. 107 of 1998);
- The Mineral and Petroleum Resources Development Act (Act No. 28 of 2002); and
- The National Water Act (Act No. 36 of 1998).

PROJECT OVERVIEW:

Water demand will increase in the Lephahale area due to various planned and anticipated developments associated with the Waterberg coalfields. The Department of Water and Sanitation (DWS) commissioned the MCWAP Feasibility Study to investigate the options for meeting the aforementioned water requirements.

MCWAP Phase 2A entails a proposed transfer scheme from the Crocodile River (West) at Vlieëpoort near Thabazimbi to the Lephahale area (Limpopo Province) via a system consisting of:

- Weir and abstraction infrastructure, including a balancing reservoir, desilting works, and a high lift pump station at Vlieëpoort (near Thabazimbi);
- Transfer system (approximately 100 km);
- Break Pressure Reservoir;
- Operational Reservoir;
- Delivery system, consisting of a gravity pipeline (approximately 30km) running from the Operational Reservoir to the Steenbokpan area; and
- Ancillary infrastructure.

Construction material will need to be sourced from approximately 30 borrow pits that will be located at 5km intervals along the project footprint.

APPLICATION FOR ENVIRONMENTAL AUTHORISATIONS:

Nemsi Consulting is appointed by DWS and TCTA (Implementing Agent) to conduct the EIAs for the following, in terms of Government Notice No. R. 982 of 4 December 2014 (as amended):

- Water Transfer Infrastructure** – application for a Scoping and EIA process to the Department of Environmental Affairs; and
- Borrow Pits** – application for a Scoping and EIA process to the Department of Mineral Resources.

In addition, approval will also be sought from DWS for water uses associated with the project in terms of Section 21 of the National Water Act (Act No. 36 of 1998).

REVIEW OF DRAFT REPORTS:

The Draft Scoping Report (Borrow Pits) and Draft EIA Report (Water Transfer Infrastructure) will be lodged for public review at the

VOORGESTELDE MOKOLO EN KROKODILRIVIER (WES) WATERAANVULLINGSPROEJ (MKWAP) FASE 2A

KENNISGEWING AANGAANDE DIE HERSIENING VAN DIE VOORLOPIGE OMVANGSBEPALINGSVERSLAG (LEENGREOWELEN VOORLOPIGE OMGEWINGSIMPAKBEPALINGSVERSLAG (WATEROORDRAGSKEMA), SOWEL AS OPENBARE VERGADERINGS

Hierdie kennisgewing word gegee kragtens die volgende:

- Die Omgewingsimpakbeoordelingsregulasies (Staatskenningsgewing Nr. R. 982 van 4 Desember 2014, soos gewysig), kragtens die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998);
- Die Wet op die Ontwikkeling van Minerale en Petroleum Hulpbronne (Wet Nr. 28 van 2002); en
- Die Nasionale Waterwet (Wet Nr. 36 van 1998).

PROEKOORSIG:

Waterbehoefes in die Lephahale area sal toeneem weens verkeie beplande en verwagte ontwikkelings geassosieer met die Waterberg Steenkoolveld. Die Departement van Water en Sanitasie (DWS) het die MKWAP-uitvoerbaarheidstudie uitgevoer om opsies vir die voorsiening in die waterbehoefes te ondersoek.

MKWAP Fase 2A behels 'n wateroordragstema vanaf die Krokodilrivier (Wes) by Vlieëpoort naby Thabazimbi na die Lephahale-gebied.

- 'n Stuwal en onttrekkingswerke by Vlieëpoort;
- Balanseerdamme, ontsluitingswerke en 'n hoëdruk-pompstasie;
- Oordragstema (ongeveer 100 km);
- 'n Drukbrekreservoir;
- 'n Operasionele bergingsdam;
- 'n Leweringstelsel wat bestaan uit 'n gravitasiepijpylyn (ongeveer 30 km) vanaf die operasionele bergingsdam na die Steenbokpan-gebied; en
- Aanvullende infrastruktuur.

Konstruksiemateriaal word benodig vanaf ongeveer 30 leengroewe wat in 5km intervale langs die pijslyn beplan word.

AANSOEK OM OMGEWINGSMAATGEGING:

Nemsi Consulting is aangestel deur DWS en TCTO (Implementeringsagent) om die Omgewingsimpakbeoordelings (OIB) uit te voer vir die volgende projekkomponente, ingevolge Staatskenningsgewing Nr. R. 982 van 4 Desember 2014 (soos gewysig):

- Wateroordragstema** – aansoek vir Omvangsbeoordeling en OIB by die Departement van Omgewingsake; en
- Leengroewe** – aansoek vir Omvangsbeoordeling en OIB by die Departement van Minerale Hulpbronne.

Magtiging word ook benodig vanaf DWS vir waterverbruik ingevolge Artikel 21 van die Nasionale Waterwet (Wet Nr. 36 van 1998).

HERSIEN VAN DIE VOORLOPIGE VERSLAE:

Die voorlopige Omvangsbeoordelingsverslag (Leengroewe) en voorlopige Omgewingsimpakbeoordelingsverslag (Wateroordragstema) sal beskikbaar gestel word vir openbare besigtiging by die volgende plekke vanaf **28 September tot 29 Oktober 2018**:

Thu 27/09/2018 12:44 PM

10580-20180927-General Notification MCWAP-2A EIA.pdf

10580-20180927-MCWAP-2A EIA Combined Comment Sheet.docx

PROPOSED MOKOLO CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT (MCWAP) PHASE 2A

NOTICE OF REVIEW OF DRAFT SCOPING REPORT (BORROW PITS) & DRAFT EIA REPORT (WATER TRANSFER INFRASTRUCTURE), AS WELL AS PUBLIC MEETINGS

Notice is hereby given in terms of the following:

- The Environmental Impact Assessment (EIA) Regulations (Government Notice No. R. 982 of 4 December 2014, as amended), in terms of the National Environmental Management Act (Act No. 107 of 1998);
- The Mineral and Petroleum Resources Development Act (Act No. 28 of 2002); and
- The National Water Act (Act No. 36 of 1998).

PROJECT OVERVIEW:

Water demand will increase in the Lephalale area due to various planned and anticipated developments associated with the Waterberg coalfields. The Department of Water and Sanitation (DWS) commissioned the MCWAP Feasibility Study to investigate the options for meeting the aforementioned water requirements.

MCWAP Phase 2A entails a proposed transfer scheme from the Crocodile River (West) at Vlieëpoort near Thabazimbi to the Lephalale area (Limpopo Province) via a system consisting of:

- Weir and abstraction infrastructure, including a balancing reservoir, desilting works, and a high lift pump station at Vlieëpoort (near Thabazimbi);
- Transfer system (approximately 100 km);
- Break Pressure Reservoir;
- Operational Reservoir;
- Delivery system, consisting of a gravity pipeline (approximately 30km) running from the Operational Reservoir to the Steenbokpan area, and
- Ancillary infrastructure.

Construction material will need to be sourced from approximately 30 borrow pits that will be located at 5km intervals along the project footprint.

APPLICATION FOR ENVIRONMENTAL AUTHORISATIONS:

Nemati Consulting was appointed by DWS and TCTA (Implementing Agent) to conduct the EIAs for the following, in terms of Government Notice No. R. 982 of 4 December 2014 (as amended):

- Water Transfer Infrastructure** – application for a Scoping and EIA process to the Department of Environmental Affairs; and
- Borrow Pits** – application for a Scoping and EIA process to the Department of Mineral Resources.

In addition, approval will also be sought from DWS for water uses associated with the project in terms of Section 21 of the National Water Act (Act No. 36 of 1998).

REVIEW OF DRAFT REPORTS:

The Draft Scoping Report (Borrow Pits) and Draft EIA Report (Water Transfer Infrastructure) will be lodged for public review at the

VOORGESTELDE MOKOLO EN KROKODILRIVIER (WES) WATERAANVULLINGSPROEJ (MKWAP) FASE 2A

KENNISGEWING AANGAANDE DIE HERSENING VAN DIE VOORLOPPE OMVANGSBEPALINGSVERSLAG (LEENGROEWELEN VOORLOPPE OMGEWINGSIMPKEBEPALINGSVERSLAG (WATEROORDRAGSKEMA), SOWEL AS OPENBARE VERGADERINGS

Hierdie kennisgewing word gegee kragtens die volgende:

- Die Omgewingsimpkbepalingsregulasies (staatskennisgewing Nr. R. 982 van 4 Desember 2014, soos gewysig), kragtens die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998);
- Die Wet op die Ontwikkeling van Minerale en Petroleum Hulpbronne (Wet Nr. 28 van 2002); en
- Die Nasionale Waterwet (Wet Nr. 36 van 1998).

PROJEKTOORSIG:

Waterbehoefte in die Lephalale area sal toeneem weens verkeerde beplande en verwagte ontwikkelings geassosieer met die Waterberg Steenkoolveld. Die Departement van Water en Sanitasie (DWS) het die MKWAP-uitvoerbaarheidstudie uitgevoer om opsies vir die voorsiening in die waterbehoefte te ondersoek.

MKWAP Fase 2A behels 'n wateroordragskema vanaf die Krokodilrivier (Wes) by Vlieëpoort naby Thabazimbi na die Lephalale-gebied. Die infrastruktuur verbonde aan die voorgestelde oordragskema behels die volgende:

- 'n Stuwal en onttrekkingswerke by Vlieëpoort;
- Balansierdamme, ontsikingswerke en 'n hoëdruk-pompstasie;
- Oordragskema (ongeveer 100 km);
- 'n Drukbrekreservoir;
- 'n Operasionele bergingsdam;
- 'n Leweringstelsel wat bestaan uit 'n gravitasiepylplyn (ongeveer 30 km) vanaf die operasionele bergingsdam na die Steenbokpan-gebied; en
- Aanvullende infrastruktuur.

Konstruksiemateriaal word benodig vanaf ongeveer 30 leengroewe wat in 5km intervalle langs die pyplyn beplan word.

AANSOEK OM OMGEWINGSMAGTIGING:

Nemati Consulting is aangestel deur DWS en TCTO (Implementeringsagent) om die Omgewingsimpkbepalings (OIB) uit te voer vir die volgende projekkomponente, ingevolge Staatskennisgewing Nr. R. 982 van 4 Desember 2014 (soos gewysig):

- Wateroordragskema** – aansoek vir Omvangsbepaling en OIB by die Departement van Omgewingsake; en
- Leengroewe** – aansoek vir Omvangsbepaling en OIB by die Departement van Minerale Hulpbronne.

Magtiging word ook benodig vanaf DWS vir waterverbruik ingevolge Artikel 21 van die Nasionale Waterwet (Wet Nr. 36 van 1998).

HERSIEEN VAN DIE VOORLOPPE VERSLAG:

Die voorlopige Omvangsbepalingsverslag (Leengroewe) en voorlopige Omgewingsimpkbepalingsverslag (Wateroordragskema) sal beskikbaar gestel word vir openbare besigtiging by die volgende plekke vanaf **28 September tot 29 Oktober 2018:**

- 'n Operasionele bergingsdam;
- 'n Leweringsstelsel wat bestaan uit 'n gravitasiepijplyn (ongeveer 30 km) vanaf die operasionele bergingsdam na die Steenbokpan-gebied; en
- Aanvullende infrastruktuur.

Konstruksiemateriaal word benodig vanaf ongeveer 30 leengroewe wat in 5km intervalle langs die pijplyn beplan word.

AANSOEK OM OMGEWINGSMAATGIJING:

Nemai Consulting is aangestel deur DWS en TCTO (Implementeringagent) om die Omgewingsimpkebapallings (OIB) uit te voer vir die volgende projekkomponente, ingevolge Staatskennisgewing Nr. R. 982 van 4 Desember 2014 (soos gewysig):

- Wateroordragskema** – aansoek vir Omvangsbeplanning en OIB by die Departement van Omgewingsake; en
- Leengroewe** – aansoek vir Omvangsbeplanning en OIB by die Departement van Minerale Hulpbronne.

Magtiging word ook benodig vanaf DWS vir waterverbruik ingevolge Artikel 21 van die Nasionale Waterwet (Wet Nr. 36 van 1998).

HERSIEN VAN DIE VOORLOPPE VERSLAE:

Die voorlopige Omvangsbeplanningverslag (Leengroewe) en voorlopige Omgewingsimpkebapallingsverslag (Wateroordragskema) sal beskikbaar gestel word vir openbare besigtiging by die volgende plekke vanaf **28 September tot 29 Oktober 2018**:

Thu 27/09/2018 01:08 PM

10580-20180927-MCWAP-2A EIA Combined Comment Sheet.docx

PROPOSED MOKOLO CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT (MCWAP) PHASE 2A

NOTICE OF REVIEW OF DRAFT SCOPING REPORT (BORROW PITS) & DRAFT EIA REPORT (WATER TRANSFER INFRASTRUCTURE), AS WELL AS PUBLIC MEETINGS

Notice is hereby given in terms of the following:

- The Environmental Impact Assessment (EIA) Regulations (Government Notice No. R. 982 of 4 December 2014, as amended), in terms of the National Environmental Management Act (Act No. 107 of 1998);
- The Mineral and Petroleum Resources Development Act (Act No. 28 of 2002); and
- The National Water Act (Act No. 36 of 1998).

PROJECT OVERVIEW:

Water demand will increase in the Lephahale area due to various planned and anticipated developments associated with the Waterberg coalfields. The Department of Water and Sanitation (DWS) commissioned the MCWAP Feasibility Study to investigate the options for meeting the aforementioned water requirements.

MCWAP Phase 2A entails a proposed transfer scheme from the Crocodile River (West) at Vlieëpoort near Thabazimbi to the Lephahale area (Limpopo Province) via a system consisting of:

- Weir and abstraction infrastructure, including a balancing reservoir, desilting works, and a high lift pump station at Vlieëpoort (near Thabazimbi);
- Transfer system (approximately 100 km);
- Break Pressure Reservoir;
- Operational Reservoir;
- Delivery system, consisting of a gravity pipeline (approximately 30km) running from the Operational Reservoir to the Steenbokpan area; and
- Ancillary infrastructure.

Construction material will need to be sourced from approximately 30 borrow pits that will be located at 5km intervals along the project footprint.

APPLICATION FOR ENVIRONMENTAL AUTHORISATIONS:

Nemal Consulting is appointed by DWS and TCTA (Implementing Agent) to conduct the EIAs for the following, in terms of Government Notice No. R. 982 of 4 December 2014, (as amended):

- Water Transfer Infrastructure** – application for a Scoping and EIA process to the Department of Environmental Affairs; and
- Borrow Pits** – application for a Scoping and EIA process to the Department of Mineral Resources.

In addition, approval will also be sought from DWS for water uses associated with the project in terms of Section 21 of the National Water Act (Act No. 36 of 1998).

REVIEW OF DRAFT REPORTS:

The Draft Scoping Report (Borrow Pits) and Draft EIA Report (Water Transfer Infrastructure) will be lodged for public review at the following venues from **28 September until 29 October 2018**:

VOORGESTELDE MOKOLO EN KROKODILRIVIER (WES) WATERAANVULLINGSPROEJ (MKWAP) FASE 2A

KENNISGEWING AANGAANDE DIE HERSIENING VAN DIE VOORLOPIGE OMVANGSBEPALINGSVERSLAG (LEENGROEWEL EN VOORLOPIGE OMGEWINGSIMPAKBEPALINGSVERSLAG (WATEROORDRAGSKEMA), SOEWEL AS OPENBARE VERGADERINGS

Hierdie kennisgewing word gegee kragtens die volgende:

- Die Omgewingsimpakbepalingsregulasies (Staatskennisgewing Nr. R. 982 van 4 Desember 2014, soos gewysig), kragtens die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998);
- Die Wet op die Ontwikkeling van Minerale en Petroleum Hulpbronne (Wet Nr. 28 van 2002); en
- Die Nasionale Waterwet (Wet Nr. 36 van 1998).

PROEKOORSIG:

Waterbehoefes in die Lephahale area sal toeneem weens verkele beplande en verwagte ontwikkelings geassosieer met die Waterberg Steenkoolvalde. Die Departement van Water en Sanitasie (DWS) het die MKWAP-uitvoerbaarheidstudie uitgevoer om opsies vir die voorsiening in die waterbehoefes te ondersoek.

MKWAP Fase 2A behels 'n wateroordragskema vanaf die Krokodilrivier (Wes) by Vlieëpoort naby Thabazimbi na die Lephahale-gebied. Die infrastruktuur verbonde aan die voorgestelde oordragskema behels die volgende:

- 'n Stuwal en onttrekkingswerke by Vlieëpoort;
- Balanseerdamme, ontzikkingswerke en 'n hoëdruk-pompstasie;
- Oordragskema (ongeveer 100 km);
- 'n Drukbrekreservoir;
- 'n Operasionele bergingsdam;
- 'n Leweringstelsel wat bestaan uit 'n gravitasiepypleyn (ongeveer 30 km) vanaf die operasionele bergingsdam na die Steenbokpan-gebied; en
- Aanvullende infrastruktuur.

Konstruksiemateriaal word benodig vanaf ongeveer 30 leengroewe wat in 5km intervale langs die pypleyn beplan word.

AANSOEK OM OMGEWINGSMAGTIGING:

Nemal Consulting is aangestel deur DWS en TCTO (Implementeringsagent) om die Omgewingsimpakbepalings (OIB) uit te voer vir die volgende projekkomponente, ingevolge Staatskennisgewing Nr. R. 982 van 4 Desember 2014, (soos gewysig):

PROPOSED MOKOLO CROCODILE RIVER (WEST) WATER AUGMENTATION PROJECT PHASE 2A: BORROW PITS – LANDOWNER NOTIFICATION

Dear Sir / Madam

This serves to notify you, as a potentially affected landowner, of the proposed Borrow Pits associated with the Mokolo Crocodile River (West) Water Augmentation Project (MCWAP) Phase 2A.

Notice is hereby given in terms of the following:

- ❖ The Environmental Impact Assessment (EIA) Regulations (Government Notice No. R. 982 of 4 December 2014, as amended), in terms of the National Environmental Management Act (Act No. 107 of 1998);
- ❖ The Mineral and Petroleum Resources Development Act (Act No. 28 of 2002); and
- ❖ The National Water Act (Act No. 36 of 1998).

A. PROJECT BACKGROUND AND MOTIVATION

Major developments are planned for the Waterberg coalfields that are located in the Lephalale area. As a direct result of the aforementioned developments, the demand for water in the Lephalale area is expected to significantly increase into the future. Due to the limited availability of water in the Lephalale area, the Department of Water and Sanitation (DWS) conducted a feasibility study (completed in 2010) of the MCWAP to establish how the future water demands could be met.

The phases of the proposed project include the following:

- ❖ MCWAP Phase 1: Augment the supply from Mokolo Dam to supply in the growing water use requirement for the interim period until a transfer pipeline from the Crocodile River (West) can be implemented. The solution must over the long term optimally utilise the full yield from Mokolo Dam and will be operated as a system together with MCWAP Phase 2A. Phase 1 is operational since June 2015.
- ❖ **MCWAP Phase 2A:** Transfer water from the Crocodile River (West) to the Steenbokpan and Lephalale areas, including the implementation of the River Management System in the Crocodile River (West) and its tributaries. Phase 2A is the focus of this Environmental Impact Assessment.

The overall MCWAP Phase 2A consists of the following components:

- ❖ Water Transfer Infrastructure - transfer of water from Crocodile River (West) to Lephale;
- ❖ **Borrow Pits** - sourcing of construction material; and
- ❖ River Management System - manage abstractions from, and the river flow in, the Crocodile River (West) between Hartbeespoort Dam and Vlieëpoort Weir, the Moretele River from Klipvoor Dam to the confluence with the Crocodile River (West), the stretch of Elands River from Vaalkop Dam to Crocodile confluence, and also the required flow past Vlieëpoort.

This notice specifically deals with the Borrow Pits component which is required for the proposed MCWAP-2A project.

B. PROJECT LOCATION

The project is located within the western part of the Limpopo Province. The borrow pits required for the MCWAP Phase 2A are situated within Thabazimbi and Lephale Local Municipalities, which fall within the jurisdiction of the Waterberg District Municipality. The proposed borrow pits commence in the south-western point of the project area, from the Vlieëpoort Mountains at BP SS1 situated in the Crocodile River (West). From there, the borrow pits are situated at approximately 5 km intervals in a predominantly northern direction along existing roads, farm boundaries and a railway line until ending near Steenbokpan at the last borrow pit, BP 51.

The 23 proposed borrow pits are situated along the MCWAP Phase 2 pipeline, as construction material will be sourced from the borrow areas and used for the construction of the pipeline infrastructure. The surrounding areas to the proposed borrow pits include Thabazimbi, which is situated approximately 10 km to the north-east of the first borrow pit, BP SS1. Lephale is situated approximately 20 km to the east of the last borrow pit, BP 51.

A map is also attached which shows the footprint of the specific MCWAP Phase 2A borrow pits, in relation to your property.

C. PROJECT DESCRIPTION

The proposed borrow pits consist of the following:

- ❖ Mining areas;
- ❖ Topsoil/overburden stockpiles;
- ❖ Access and haul roads;
- ❖ Mining equipment (screener, delivery vehicles, etc.); and
- ❖ Site offices/stores.

23 proposed borrow pits are required for the sourcing of suitable material to be utilised during the construction phase of the MCWAP Phase 2A. The borrow pits will be required to source the necessary quantities of material and are located at approximately 5 km intervals along the central pipeline route, in order to limit haul distances and eliminate the need to source material from commercial sources, such as from the towns of Thabazimbi or Lephale.

D. SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

The process for seeking authorisation under the National Environmental Management Act (No. 107 of 1998) is undertaken in accordance with Government Notice No. R. 982 of 4 December 2014 (as amended), promulgated in terms of Chapter 5 of this Act. Based on the types of

activities involved the requisite environmental assessment for the project is a Scoping and EIA process.

In terms of the National Environmental Management Act (No. 107 of 1998) the lead decision-making authority for the environmental assessment is the Department of Mineral Resources. Nema Consulting was appointed by DWS and TCTA (Implementing Agent) as the independent Environmental Assessment Practitioner (EAP) to undertake the environmental assessment for the proposed MCWAP Phase 2A: Borrow Pits.

E. PUBLIC PARTICIPATION PROCESS

As part of the EIA, public participation will be conducted which will serve the following purposes:

1. To provide Interested and Affected Parties (IAPs) with an opportunity to obtain information about the project;
2. To allow IAPs to express their views, issues and concerns with regard to the project;
3. To grant IAPs an opportunity to recommend measures to avoid or reduce adverse impacts and enhance positive impacts associated with the MCWAP-2 project; and
4. To enable DWS and the project team to incorporate the needs, concerns and recommendations of IAPs into the project, where feasible.

This notification, which forms part of the EIA public participation process, is provided in accordance with Regulation 41(2)(b) of Government Notice No. R. 982 (as amended), which requires that the EAP provides written notice to (amongst others):

- (i) The occupiers of the site and, if the proponent or applicant is not the owner or person in control of the site on which the activity is to be undertaken, the owner or person in control of the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken; and
- (ii) Owners, persons in control of, and occupiers of land adjacent to the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken.

F. PUBLIC MEETINGS AND REVIEW OF DRAFT REPORTS

The Draft Scoping Report (Borrow Pits) and Draft EIA Report (Water Transfer Infrastructure) will be lodged for public review at the following venues from **28 September – 29 October 2018:**

Location	Address	Tel. No.
Lephalale Public Library	Lephalale Civic Centre, c/o Joe Slovo & Dou Water St, Lephalale	014 762 1453

Kosmos Library	108 Paul Kruger Ave, Kosmos, Brits	012 253 5128
Steenbokpan Winkel	Steenbokpan	014 766 0167
Lesedi Thusong Community Centre	Steenbokpan	079 321 3150 / 014 762 1423
Marapong Public Library	916 Phukubye St, Marapong, Lephalale	014 762 1484

The following public meetings will be held to present the reports:

Date	9 October 2018	10 October 2018	11 October 2018	
Area	Hartbeespoort Dam	Thabazimbi	Lephalale	Steenbokpan
Time	Open Session: 12:00 – 15:30	Public Meeting: 13:00 – 17:00	Public Meeting: 9:00 – 13:00	Public Meeting: 14:30 – 17:00
	Public Meeting: 16:00 – 18:30			
Venue	Hartbeespoort NG Kerk	Kumba Bioscope Hall Thabazimbi	Mogol Club, Grootgeluk Conference Room	Lesedi Thusong Community Centre

The Draft Reports can also be downloaded from the following websites:
<http://www.nemai.co.za/environmental.html> or <http://www.dwa.gov.za/Projects/MCWAP/>.

We kindly request that the attached Acknowledgement Form be completed and provided to Nemai Consulting as proof of this notification.

We will keep you posted as the EIA process unfolds. Please contact the undersigned for any queries.

Yours faithfully
Nemai Consulting C.C.

Ons Verwysing: 10580/GrondeienaarKennisgewing

28 September 2018

VOORGESTELDE MOKOLO EN KROKODILRIVIER (WES) WATERAANVULLINGSPROJEK FASE 2A: LEENGROEWE – KENNISGEWING AAN GRONDEIENAARS

Geagte Meneer/Mevrou

U word hiermee in kennis gestel van die voorgestelde Leengroewe wat deel vorm van die Mokolo Krokodilrivier (Wes) Wateraanvullingsprojek (MKWAP).

Hierdie kennisgewing word gegee kragtens die volgende:

- ❖ Die Omgewingsimpakbepalingsregulasies (Staatskennisgewing Nr. R. 982 van 4 Desember 2014, soos gewysig), kragtens die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998);
- ❖ Die Wet op die Ontwikkeling van Minerale en Petroleum Hulpbronne (Wet Nr. 28 van 2002); en
- ❖ Die Nasionale Waterwet (Wet Nr. 36 van 1998).

A. PROJEK AGTERGROND EN MOTIVERING

Groot ontwikkelings word beplan vir die Waterberg Steenkool velde in die Lephalale area. As 'n direkte gevolg van die voorgenoemde ontwikkelings sal die water aanvraag in die Lephalale area noemenswaardig toeneem in die toekoms. Weens die beperkte beskikbaarheid van water in die Lephalale area het die Departement van Water en Sanitasie (DWS) die MKWAP Uitvoerbaarheid Studie van stapel gestuur om opsies vir die voorsiening in die water behoeftes te ondersoek.

Die fases vir die voorgestelde infrastruktuur behels die volgende:

- ❖ MKWAP Fase 1: Aanvulling vanaf Mokolodam om aan die groeiende water behoeftes te voldoen vir die interim periode totdat die oordragpylyne vanaf die Krokodilrivier (Wes) geïmplementeer kan word. Die oplossing moet die volle lewering vanaf Mokolodam oor die langtermyn optimaal benut en sal as 'n stelsel bedryf word tesame met die MKWAP Fase 2A. Fase 1 word al bedryf vanaf Junie 2015.
- ❖ **MKWAP Fase 2A:** Oordrag van water vanaf Krokodilrivier (Wes) tot by die Steenbokpan en Lephalale gebiede, insluitend die implementering van die rivierbedryfstelsel in die Krokodilrivier (Wes) en sy sytakke. Fase 2A is die fokus van die Omgewingsimpakbepaling.

Die algehele MKWAP Fase 2A bestaan uit die volgende komponente:

- ❖ Water oordrag infrastruktuur (hoofonderwerp van hierdie Omgewingsimpakbepaling) - oordrag van water van die Krokodilrivier (Wes) na Lephallale;
- ❖ **Leengroewe** – verkryging van konstruksiemateriaal; en
- ❖ Rivierbedryfstelsel – bestuur ontrekkings vanaf, asook die riviervloei in, die Krokodilrivier (Wes) tussen Hartbeespoortdam en die stuwal by Vlieëpoort, die Moretelerivier vanaf Klipvoordam tot by die samevloei met die Krokodilrivier (Wes), die Elandsrivier vanaf Vaalkopdam tot by die samevloei met die Krokodilrivier (Wes), asook die vereiste vloei verby Vlieëpoort.

Hierdie kennisgewing handel spesifiek oor die voorgestelde Leengroewe wat benodig word vir die voorgestelde projek.

B. PROJEK LIGGING

Die projekgebied is geleë in die westelike gedeelte van die Limpopo-provinsie. Die voorgestelde leengroewe oorkruis die Thabazimbi en Lephallale Plaaslike Munisipaliteite, wat beide in die jurisdiksie van die Waterbergdistriksmunisipaliteit val. Die voorgestelde leengroewe begin in die suid-westelike gedeelte van die projek area, in die Vlieëpoortberge by BP SS1 in die Krokodilrivier (Wes). Van daar af volg die leengroewe in 'n noordelike rigting, teen ongeveer 5km tussenposes langsaan bestaande paaie, plaasgrense en 'n spoorlyn en eindig naby Steenbokpan by die laaste leengroef, BP 51.

Die 23 voorgestelde leengroewe is langsaan die MKWAP Fase 2A pyplyn geleë, aangesien konstruksiemateriaal gebruik sal word vir die konstruksie van die pyplyn infrastruktuur. Thabazimbi is ongeveer 10 km noord-oos van die eerste voorgestelde leengroef, BP SS1. Lephallale is ongeveer 30 km oos van die laaste voorgestelde leengroef, BP 51.

Asseblief vind aangeheg 'n liggingskaart vir die voorgestelde leengroewe.

C. PROJEKBESKRYWING

Die voorgestelde leengroewe behels die volgende:

- ❖ Mynbou area;
- ❖ Bogrond/deklaag hope;
- ❖ Paaie vir toegang en vervoer van materiaal;
- ❖ Mynbou-toerusting; en
- ❖ Terreinkantore/werkswinkels.

Die voorgestelde leengroewe word benodig as die bron van geskikte materiaal wat tydens die konstruksiefase van die MKWAP Fase 2A gebruik sal word. 23 leengroewe sal benodig word om die nodige hoeveelheid materiaal te kry, en is ongeveer 5 km langsaan die sentrale pyplynroete geleë om die afstand te beperk en die behoefte aan materiaal uit kommersiële bronne te elimineer, soos van die dorpe Thabazimbi of Lephallale.

D. OMVANGSBEPALING EN OMGEWINGSIMPAKBEPALING-PROSES

Die aansoekproses vir magtiging van die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998) word onderneem ingevolge die Omgewingsimpakbepalingsregulasies (Staatskennisgewing Nr. R. 982 van 4 Desember 2014, soos gewysig). Op grond van die gelyste aktiwiteite wat deur die leengroewe genoodsaak word, sal 'n Omvangsbepaling en Omgewingsimpakbepaling-proses uitgevoer word.

Ingevolge die Wet op Nasionale Omgewingsbestuur (Wet Nr. 107 van 1998) is die besluitnemende owerheid die Departement van Mineraal hulpbronne. Nemaï Consulting is aangestel deur DWS en TCTA (Implementeringsagent) as die onafhanklike Omgewingsimpakbepalingspraktisyn om die Omgewingsimpakbepaling-proses uit te voer vir die MKWAP Fase 2A: Leengroewe.

E. OPENBARE DEELNAME

Die doelwitte van die openbaredeelname-proses wat deel vorm van die Omgewingsimpakbepaling behels die volgende:

1. Om Belanghebbende en Geaffekteerde Party (B&GP'e) die geleentheid te bied om inligting rakende MKWAP Fase 2 te verkry;
2. Om B&GP'e die geleentheid te bied om hulle menings, kwessies en bekommernisse te opper;
3. Om B&GP'e die geleentheid te bied om maatreëls voor te stel om ongunstige impakte te vermy of te minimaliseer, sowel as om positiewe impakte verbonde aan MKWAP Fase 2A te vergroot; en
4. Om die DWS en die projekspan die geleentheid te gee om die behoeftes, bekommernisse en aanbevelings van B&GP'e by die projek in te werk.

Hierdie kennisgewing, wat deel vorm van die openbaredeelname-proses, word gegee kragtens regulasie 41(2)(b) van Staatskennisgewing nr. R. 982 van 4 Desember 2014 (soos gewysig), wat vereis dat skriftelike kennis gegee moet word aan onder andere:

- (i) Die okkupeerders van die terrein en die eienaar of persoon in beheer van daardie grond waar die aktiwiteit onderneem word of onderneem staan te word indien die aansoeker nie die eienaar of persoon in beheer van die grond is nie, of enige alternatiewe terrein waar die aktiwiteit onderneem staan te word; en
- (ii) Eienaars, persone in beheer van, en okkupeerders van grond aangrensend aan die terrein waar die aktiwiteit onderneem word of onderneem staan te word of enige alternatiewe terrein waar die aktiwiteit onderneem staan te word.

F. OPENBARE VERGADERINGS EN DIE HERSIEN VAN DIE VOORLOPIGE VERSLAE

Die voorlopige Omvangsbepalingsverslag (Leengroewe) en voorlopige Omgewingsimpakbepalingsverslag (Wateroordragskema) sal beskikbaar gestel word vir openbare besigtiging by die volgende plekke vanaf **28 September tot 29 Oktober April 2018**:

Plek	Adres	Tel. Nr.
Lephalale Openbare Biblioteek	Lephalale Burgersentrum, hoek van Joe Slovo & Dou Water Straat, Lephalale	014 762 1453
Thabazimbi Openbare Biblioteek	4 th Laan, langsaaan Polisiestatie in Thabazimbi	014 777 1525
Nasionale Biblioteek van Suid Afrika (Pretoria)	Hoek van Johannes Ramokhoase Straat and Thabo Sehume Straat, Pretoria	012 401 9700

Plek	Adres	Tel. Nr.
Kosmos Biblioteek	108 Paul Kruger Laan, Kosmos, Brits	012 253 5128
Steenbokpan Winkel	Steenbokpan	014 766 0167
Lesedi Thusong Gemeenskapsentrum	Steenbokpan	079 321 3150 / 014 762 1423
Marapong Publieke Biblioteek	916 Phukubye Straat, Marapong, Lephale	014 762 1484

Die volgende openbare vergaderings sal gehou word om die Voorlopige verslae aan te bied:

Datum	9 Oktober 2018	10 Oktober 2018	11 Oktober 2018	
Area	Hartbeespoort Dam	Thabazimbi	Lephale	Steenbokpan
Tyd	Ope Sessie: 12:00 – 15:30 Openbare Vergadering: 16:00 – 18:30	Openbare Vergadering: 13:00 – 17:00	Openbare Vergadering: 9:00 – 13:00	Openbare Vergadering: 14:30 – 17:00
Lokaal	Hartbeespoort NG Kerk	Kumba Bioskoopsaal, Thabazimbi	Mogol Klub, Grootgeluk Konferensiesaal	Lesedi Thusong Gemeenskapsentrum

Die voorlopige Omvangsbepalingsverslae kan ook afgelaai word op die volgende webblaaie:
<http://www.nemai.co.za/environmental.html> of <http://www.dwa.gov.za/Projects/MCWAP/>.

U word vriendelik versoek om die aangehegte erkenningsvorm in te vul en terug te stuur aan Nemai Consulting ter bewys van die kennisgewing.

U sal verder op hoogte gehou word van die vordering van die Omgewingsimpakbepalingsproses. U is welkom om met ons te skakel rakende enige navrae.

Die uwe
Nemai Consulting CC
