Re: Mokolo and Crocodile (West) Water Augmentation Project (MCWAP): Notice of Review of Phase 1 Draft Environmental Impact Report and Public Meetings

Dear Sir / Madam

The Department of Water Affairs (DWA) commissioned the Mokolo and Crocodile (West) Water Augmentation Project (MCWAP) Feasibility Study to establish how water demands can be met for planned and anticipated developments in the Lephalale area. The proposed components of MCWAP include the following:

- Phase 1 - transfer scheme from the Mokolo Dam;
- Phase 2 - transfer scheme from the Crocodile River (West) to Lephalale area; and
- De-bottlenecking of an existing pipeline that stretches from Mokolo Dam to Lephalale.

Nemai Consulting was appointed by DWAF as the independent Environmental Assessment Practitioner (EAP) to undertake the environmental assessments for MCWAP, in accordance with Government Notice No. R385, R386 and R387 promulgated in terms of the National Environmental Management Act (No. 107 of 1998).

In accordance with regulation 58 of Government Notice No. R385, this serves as notification of the review process for the MCWAP Phase 1 Draft Environmental Impact Report and of the public meetings that have been scheduled to present the findings contained in this document. Further information regarding the aforementioned is contained in the attached notice.

Kind Regards

Salomon Pienaar

Dear Adam

Please note that the route Alternative B, which is an option that traverses the Farms Witbank 647 LQ and Wolvenfontein 645 LQ that was recommended by the landowner, requires an amendment in the EIA Report. We will cut a CD with the updated report which will be ready by Monday morning. We can make arrangement to have the CD delivered – please advise.

Regards
 Donovan Henning
