Subject: RE: Proposed Ncwabeni Off-Channel Storage Dam: EIA Notification

Hi Donovan,

We are in possession of a copy of the NCWABENI: OFF-CHANNEL STORAGE DAM Scoping report dated January 2012.

As we have received the report we must assume the Department has been registered as an I&AP. If not the required information is as below:

Organisation: Kwazulu-Natal Department of Transport
 Representative: Mr R. Lindsay
 Address: Head: Transport, P Bag X9043, Pietermaritzburg, 3200
 Address: 224 Prince Alfred Street, Pietermaritzburg, 3201

Telephone: 033 355 0555
 Cell: 082 808 9805

Comments: Item 12.16.4 Transportation Network (Page 112)

The issues regarding maintenance of the Provincial roads during the construction phase have been identified in the report.

As indicated Site D2 (Ncwabeni river) has the least impact on the Provincial road network.

Site D3A (Gugamela river) requires a significant length of road construction and will result in an increased maintenance burden on the Department.

Any work carried out on our road network will require our written approval.

I may not be able to attend the public meeting on Wednesday. Please send me a copy of the minutes and future correspondence relating to this project.

Regards

R B Lindsay
