Subject: RE: Proposed Ncwabeni Off-Channel Storage Dam: EIA Notification

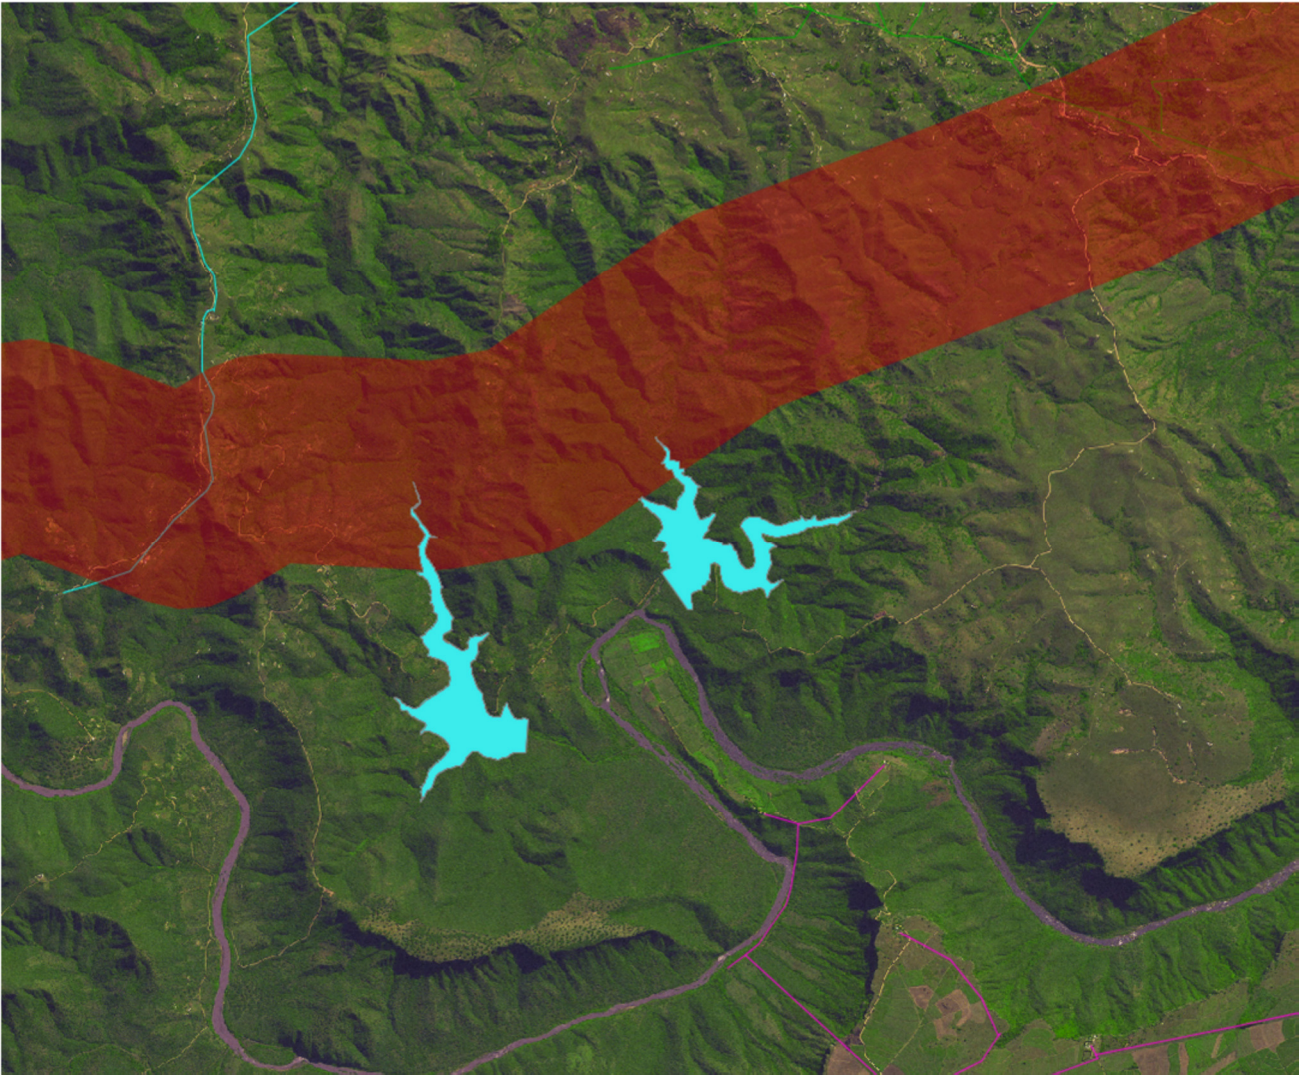

Hello All

I had a look at the two proposed dam sites. There is currently no Eskom infrastructure in the area.

Current Eskom infrastructure

Future Eskom network – Red band indicates a proposed 400kV corridor between Thornville and Harding.

Dear Aalia

As requested, herewith the shp files for the alternative dam sites.

Please let me know if anything else is required.

Regards
 Donovan Henning

Afternoon Donovan

Please can you assist with providing shapefiles for the proposed dams. These would assist with helping locate the dam, as well as give us a clear indication of connections affected and existing infrastructure.

Many thanks
 Lia

Subject: Proposed Ncwabeni Off-Channel Storage Dam: EIA Notification

Dear Sir / Madam

The Department of Water Affairs (DWA) has proposed the construction of an off-channel storage (OCS) dam on a tributary of the Mzimkhulu River, in order to provide for the water requirements of the Mzimkhulu Regional Water Supply Scheme.

This serves to announce the project and to notify potentially Interested and Affected Parties of the review of the draft Scoping Report, which was compiled as part of the Environmental Impact Assessment (EIA) process for the proposed project. In this regard, please find the following documentation attached hereto:

1. EIA Notification Letter;
2. Background Information Document; and
3. Reply Form.

Please contact the undersigned for any queries.

Regards
Donovan Henning
