NORTH WEST REGION RISE IN ESTABLISHING WATER AND SANITATION FORUMS

22 February 2016

There are eleven Water and Sanitation Community forums established in Ngaka Modiri Molema District Municipality, mainly in Ratlou Local Municipality and Ramotshere Moiloa.

Tswaing Local Municipality will also be having their own forums established in the next coming months. The forum members consist of ward members, tribal office representatives, local municipality, Sedibeng Water, Department of Water and Sanitation and Department of Local Government and Human Settlement and District Municipality.

Last year nine Water and Sanitation forums were established in Madibeng LM and they have since been capacitated with water and sanitation issues. Members play a critical role because they get feedback on developments, plans, progress and challenges and status of projects

As a leader and regulator in the water sector, the Department of Water and Sanitation will continue to engage with different stakeholders who are directly, indirectly involved or affected by the water business so as to directly have first hand information when communities are not happy with services rendered to them.
