### DUTIES

: Assist in the development of policies and strategies to manage industrial impacts in accordance with the National Water Act, 1998 (Act 36 of 1998), and other Departmental policies and strategies. Provide assistance and support to the Regional Offices of the Department on water resources management and industrial impacts. Play a role in the budgeting and expenditure for the Directorate. Assist in the implementation of policy and

strategies through the development of procedures and guidelines, as well as auditing the bodies responsible for implementation, including at the Regional Offices. Assist in the evaluation of water use licence applications and reports. Other documents submitted in accordance with legislations, policies, procedures and guidelines relevant to Water Quality Management. Make recommendations regarding the issuing of licences. Be involved in the management of projects relevant to the management of water resources initiated by the Department. Ensure transparent governance through negotiations, capacity building and liaison with existing and potential users of the water resources, whose use may contribute to the deterioration of water quality, and the users affected by or interested in the potentially detrimental water use, such as communities, NGO's, local, provincial and national government.
