

RSA Ground Water Reserve Determination Map September 2020

Description:

This map depicts the current status of groundwater Reserve determinations for South Africa (Sept. 2020). The map should be interpreted together with the associated tables (available from the CD: WE).

The map was based on information at the time of printing and will be updated by RDM:GWRD on an annual basis.

Data sources:

Reserve Determinations: Directorate: Water Ecosystems (WE); Dept. Water and Sanitation (DWS).
9 Water Management Areas (2012) and Drainage Regions: Directorate Catchment Management; Dept. Water & Sanitation (DWS).
Coastline, international boundaries, cities, towns, rivers and dams: Chief Directorate National Geospatial Information (NGI); Dept. Rural Development and Land Refrom (DRDLR).
